Subject: Aera Energy LLC - Aquifer Exemption and Disposal Well Project - South Belridge Field - Kern County

By now you have received a CEQA Initial Study/Mitigated Negative Declaration for our proposed aquifer exemption and disposal well project in South Belridge. Please contact me if you have any questions regarding the projects. As I currently understand it, Jan Perez of DOGGR's Sacramento office will be conducting the lead agency staff review. I just forwarded her an electronic version of the document and will gladly do the same for each of you if it will help with your reviews.

Thank you,
Ron Chambers

Jessica (APCD), – I've sent this to you since you've recently completed a CEQA document for our steam generator projects. Please forward this email to the appropriate person if you weren't assigned the review of the referenced IS/MND.

Michael (F&WS), - I understand that you're leaving the Service soon and likely won't be reviewing this project so please pass this email along to the staff person that inherited the project.

Thanks again,
Ron Chambers
